

As a resident of Denver K-Love provides safe place for my kids to listen to radio. If K-Love is removed many families will be without the good influence K-Love has on the community and churches. K-Love not only provides a safe place to listen to radio but also provides many services and prayer that is not always at hand anywhere else, just listening to K-Love and hearing about all the lives it touches is proof enough that it is obvious K-Love is a positive radio station. One of a kind.
